Santa Barbara is a year-round tourist destination renowned for its fair weather, beaches, and Spanish architecture. It sits on a narrow shelf between the steep-rising Santa Ynez mountains which form a scenic backdrop to the town with views of the blue Pacific. Known for its mild Mediterranean climate, July temperatures are around 80 degrees daytime. Expect some early morning coastal fog. Goleta is next door to Santa Barbara and is situated 90 miles north of Los Angeles. Fly into LAX and rent a car to drive up or fly into Santa Barbara airport. There are ample opportunities for shopping, wine-tasting, and sight-seeing. Check [www.santabarbaraca.com](http://www.santabarbaraca.com)
